99 Shameless Success Secrets They Don't Teach You At Eton, Harrow Or Even The Classiest Comprehensive!

John Harrison

Life is a journey, but not everyone experiences the same trip. Some find the shortcuts, while others get stuck down blind alleys. Some travel in comfort, while others are transported 'cattle class'. Some pick up first rate passengers while others accumulate useless excess baggage. Some flow from one beautiful destination to the next, while others visit a succession of hell holes. What makes the difference? Well that's what this book is all about.

They don't teach any of this in schools - no matter how much you pay to go there. They don't teach it in college or university either. In fact they don't teach this anywhere. You usually have to learn the hard way - through painful, costly and time consuming trial and error.

But now there's an easier way. It's hindsight - in advance! And who wouldn't want to take advantage of that?

If you're still in education, you need this book today. If you're striving to establish yourself in a career, you need this book today. In fact, if you're just the sort of person who wants to enrich the journey with greater wealth, health and happiness - no matter what stage you're currently at - it's a read you can't afford to miss.
