By Johan Simonsson, Founder & CEO
January 12, 2016

STOCKHOLM – January 12, 2016 - I'm happy to announce that we have just launched watchflipn.com. Watchflipn.com is a marketplace where sellers can find the best professional buyer for their premium timepiece.

SO, WHAT IS WATCHFLIPN?

It's a bidding platform

Sellers get bids from numerous dealers once a watch is listed. Choose the dealer offering the highest price or the dealer with the best reputation.

It's safe

We've partnered with some of the more reputable dealers in the UK whom all have a long track record of satisfied customers. Sellers don't have to worry about the inconveniences that may occur on more general peer-to-peer marketplaces

It's tailored to sell watches

Since we only allow professional dealers to participate in the auction sellers may receive bids as store credit or a consignment deal in addition to traditional cash offers.

ABOUT FLIPNGROUP

Flipngroup is a Swedish based Start-up focusing on building a more safe and efficient way to trade premium watches. We are currently present in Sweden & UK and will continue expanding our market presence throughout 2016.
