Evendo launches in Australia, continues global expansion

Date: 14th September 2022

www.evendo.com, the leader in the online social events market announced today the next chapter in their global expansion by launching into the Australian market.

This launch comes after their prior expansion into 30 new markets across North America and Europe and is intended as the first amongst many Evendo launches within the Asia-Pacific market.

“Our intention has always been to make Evendo a global brand and we are thrilled to be bringing Evendo to Australia. Evendo’s mission to help people create better events resonates in every new market we enter and the anticipation beforehand is just incredible.” says Costas Mavroudis, COO of Evendo.

Evendo is now fully operational in 33 countries across 3 continents and Costas Mavroudis is confident that the Australian launch will help continue the consistent 30% month on month growth since the last expansion.

“The demand from the Australian market simply exceeded all our expectations with more than 1.5 million Australian users gauging an interest in our offering over the last 12 months. And through tens of thousands of Evendo bookings over the last year we have been able to build and launch with an amazing hand-picked inventory of nearly 10,000 Australian products available to book from day one.” Says Simon Nichols, Head of Partnerships at Evendo.

About Evendo:

www.evendo.com is disrupting the social events market by providing the world’s first Online Event Agency (OEA) – offering a “Booking.com-like experience” in an otherwise analogue industry.

Evendo provides a global inventory of 500,000+ instantly bookable event products, activities, and services – the biggest inventory in the industry for social events including experiences, transportation, venues, party rentals, catering, entertainment and more.

Evendo is currently available in over 30 global markets including United States, Australia, Germany, France, Denmark, Norway, Sweden, Netherlands, Austria, Switzerland, Italy, Spain, United Kingdom and Singapore.
